ABOUT ME

In 2008, I began working as a programmer. I have joined and completed various projects in almost all information technology fields.

My greatest passion has always been discovering new, interesting, and challenging things.

I like putting myself under pressure to break my own limits.

WORK EXPERIENCE

TECHNICAL ARCHITECT

NASHTECH VIETNAM

Sept 2018 - Present

Building solution architecture, technical architecture, technical consultancy and outsourcing for customers from UK, USA, Singapore, Japan, Ireland... based on latest technologies.
